

We See Things Differently.

The American Equity Underwriters, Inc. (AEU) is pleased to announce the 2009 Safety Award program criteria. The program is open to all ALMA members and is based on 2009 safety performance. To participate, ALMA members must send the man-hour totals from their OSHA Form 300A for 2009 to AEU by May 21, 2010. Winners will be announced during the 2010 ALMA Conference, July 8 - 11, 2010.

The program will identify ALMA members with the lowest frequency of injury cases. It will give each member an opportunity to measure their safety performance against companies of similar size in the shipyard and marine cargo handling industries.

AEU would like to thank the members of the AEU Safety Committee for their comments and suggestions about the program.

There are two categories:

1. Shipyards
2. Marine Cargo Handling

Both categories will have three winners, based on the man-hour groups below.

- a. 100,000 – 500,000 man-hours annually
- b. 500,000 – 2,000,000 man-hours annually
- c. 2,000,000 and above man-hours annually

Guidelines

1. For the purpose of this program, man-hours submitted to AEU should be direct employee man-hours during 2009. Do not include subcontract labor hours.
2. The term of the program is January 1, 2009 to December 31, 2009.
3. Man-hour totals may be sent via email to jim.burgin@amequity.com or faxed to (251)690-4299.
4. The deadline to submit man-hours is May 21, 2010.

If you have questions regarding this program, please contact
any AEU staff or Jimmy Burgin
(251) 690-4246 or 866-AEU-8754
