

AEU 2010 SAFETY AWARDS

The American Equity Underwriters, Inc. (AEU) is pleased to recognize the 2010 Safety Award winners. The program is open to all ALMA members and is based on 2010 safety performance.

Three safety award winners were presented in both the marine cargo handling and shipyard industries. A new category was added this year – the General Safety Award. Winners had the lowest lost time frequency rate, which is the number of lost time cases compared to the payroll for the calendar year. The awards were presented on July 15 at the 2011 ALMA Conference in Park City, Utah. Congratulations to these award recipients!
